INTERDISCIPLINARY REVIEW:

The Proposed Action was presented to, and reviewed by, the White River Field Office interdisciplinary team on 7/12/2011. A complete list of resource specialists who participated in this review is available upon request from the White River Field Office. The table below lists resource specialists who provided additional remarks concerning cultural resources and special status species.

Name	Title	Resource	Date
Michael Selle	Archaeologist	Cultural Resources, Native American Religious Concerns	8/1/2011
Lisa Belmonte	Wildlife Biologist	Special Status Wildlife Species	7/19/2011
Zoe Miller	Ecologist	Special Status Plant Species	7/20/2011

REMARKS:

Cultural Resources: A 131 foot (40 meter) wide corridor was inventoried at the Class III (100 percent pedestrian) level (Price 1981) which identified two archaeological sites along the south side of the proposed route. The sites were recommended for avoidance and a reroute to avoid the sites was proposed and flagged. Monitoring of construction was recommended though no record of the monitor has been located so far. As long as no new disturbance or widening of the road is undertaken, there would be no new impacts to cultural resources.

Native American Religious Concerns: No Native American religious concerns are known in the area, and none have been noted by Northern Ute tribal authorities. Should recommended inventories or future consultations with Tribal authorities reveal the existence of such sensitive properties, appropriate mitigation and/or protection measures may be undertaken.

Special Status Wildlife Species: There are no wildlife-related issues or concerns associated with the Proposed Action.

Special Status Plant Species: There are no special status plant species concerns with the Proposed Action.
